ASSEMBLY INSTRUCTIONS

CAUTION

◆ Inspect the wire insulation for any cuts, abrasions, or exposed copper that may have resulted during shipping. If there is a defect in the wire, do not attempt installation.

◆ Before starting installation of this fixture or removal of a previous fixture, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box.

Socket Ring
Bulbs (not included)
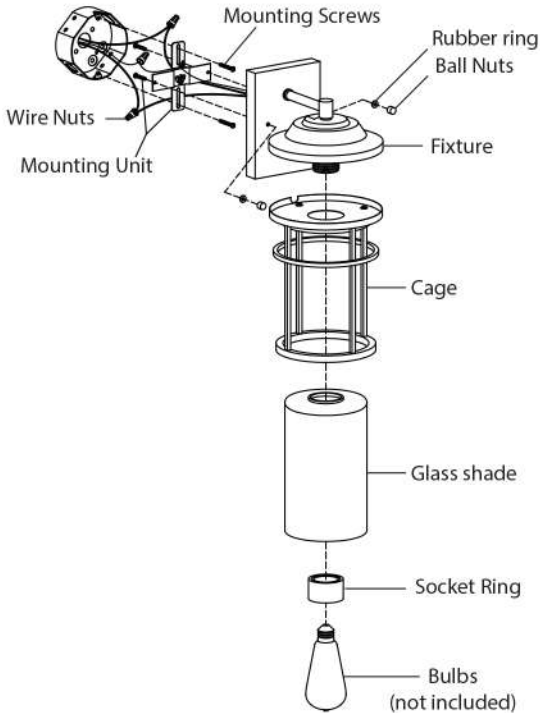

INSTALLATION

STEP 1

Unscrew the rubber rings and ball nuts from the mounting unit. Use the mounting screws to attach the mounting unit to the junction box(not included).

STEP 2

Make the electrical connection from the junction box to the fixture. Connect the ground wire to the mounting unit using the preinstalled green ground screw. Then, connect the positive, negative and ground wires with the supplied wire nuts. Secure with electrical tape.

From junction box	From fixture
Black or Red wire (hot) from the junction box	Black wire from the fixture
White wire (neutral) from the junction box	White wire from the fixture
Bare or Green ground wire from the junction box	Ground wire from the Fixture
	*Green Ground Screw

*Sealing tape (not included)

Simply Retrofits

## ASSEMBLY INSTRUCTIONS (INSTALLATION)

STEP 3
Attach the fixture to the mounting unit through screw holes as shown, and secure it with rubber rings and ball nuts.
NOTICE: Please use caulk in the back plate and wall mounting surface to prevent water from entering.

STEP 4
Remove the socket ring from the socket.
Attach the glass shade and cage onto fixture using socket ring.
STEP 5
Install bulbs (not included).
